

## Automatic Walk-Behind Scrubbers

## The Right Scrubber for a Spotless Facility

Advance leads the industry with the most innovative designs, unique features, and highest productivity in floor scrubbers today. That means more cleaning flexibility, longer machine run-time, easier operation, and maximum operator safety. All of Advance's automatic walk-behind scrubbers leave floors clean and dry in just one pass, increasing safety and productivity. Whether you're moving from mop-and-bucket cleaning to a small scrubber, or you require a high performance machine with the widest scrub path and newest technology available – Advance has the machine for you. Advance scrubbers offer Smart Solutions™ flow rate, onboard battery chargers, easy to use operator controls, and many more features for performance and safety. Most Advance scrubbers operate at a sound level of 65 dB A or less, making them ideal for daytime cleaning. They are also a great addition to any green cleaning program.

# Features that Make Scrubbing a Breeze

Many of our automatic scrubbers feature One-Touch™ operator controls for the easiest operation. They also feature an onboard battery charger for the quickest, most convenient charging option. To save water and detergent, we've designed all of our scrubbers with Smart Solutions™. This water-saving system guides the operator to select the right water and chemical flow rate for their cleaning needs, thereby optimizing water and chemical use. EcoFlex™ System is available on Adfinity™, SC750™, SC800™, SC1500™, Warrior™, Advenger® and Adgressor® models. EcoFlex™ System models have One-Touch™ activation for an on-demand cleaning burst of power. The Advance line of walk-behind scrubbers is also equipped with features that make them easy to maintain. The Micromatic™ 14E features a "lift-out" solution and recovery tank, while the Adfinity™ line features a tip-back tank for full accessibility.

## Rider Scrubbers

## Choose a Rider Scrubber for Increased Productivity

Advance has rider scrubbers suitable for cleaning small confined areas to large applications. The SC3000™ features a compact design, and provides user-friendly, maneuverable operation in multiple cleaning applications—including those with limited access. The SC3000's SafetyGlide™ Deck eliminates wasted time and money spent on making adjustments and replacing side skirts. Simply turn the steering wheel; as the machine turns, the deck automatically moves in line with the path of the rear squeegee, resulting in 100% water pick-up.

Need to clean large areas fast? The Advenger® rider scrubber can clean up to 39,424 square feet an hour and features a 28 gallon solution tank and 29 gallon recovery tank, which extend cleaning time. Your operators will love the Advenger for its ride-on design and low sound level. With an industry leading 63 inch aisle turning radius and the ability to fit through a standard doorway, the Advenger rider scrubber can go anywhere. For deep scrubbing needs, the Advenger® REV™ with Dual Random Orbit Scrubbing Technology can also remove floor finish in a single pass.

The Advance 2800 ST and 3400 ST scrubbers deliver high performance results on a back-to-basics rider-scrubber platform. Manual control of the scrub deck and squeegee replace intricate electronics to keep operation simple without sacrificing performance.

For even bigger cleaning jobs, Advance's Adgressor® rider scrubber is built tough, offering scrub deck options of either 35 or 38 inches wide and cleaning up to 46,200 square feet per hour. Both the Advenger and Adgressor offer interchangeable scrub decks that let you change between disc and cylindrical decks, for maximum cleaning flexibility.
