

Touchless Cleaning for Increased Productivity

Advance's All-Purpose Cleaning Systems offer touch-less cleaning that is up to three times faster than traditional methods. Advance's All Cleaner™ answers the call for an affordable, touch-less approach to cleaning restrooms and other areas with hard surfaces. You'll improve productivity and see better results – now that's smart cleaning.

When it comes to versatility, the All Cleaner makes the most of its small design. Its open chemical system allows use of any two chemical bottles (including green cleaning approved solutions) and controls the dilution rate for the proper application each time. And whether your bottle is round or rectangle, it will fit in the holding wells on the All Cleaner.

With the All Cleaner™, you'll save precious storage space in your equipment closet because of its compact size.

The All Cleaner™ XP has a powerful 500 psi pump. Combine the pump strength with the variable spray gun and you can attack the most challenging cleaning projects.

Reel Cleaner®
