

Adgility™ 6XP & 10XP

Backpack Vacuums

FACT SHEET

The light-weight Advance Adgility™ XP backpack vacuums deliver a whole new level of comfort, quiet, performance and affordability for multi-surface cleaning in close quarters. Backpack vacuums have long been favored for cleaning offices, classrooms and other facilities with hard and soft flooring and tight spaces in cubicles or between desks. Never before has there been a backpack as comfortable and effective as the Adgility XP.

Featuring the ultimate in ergonomic design, the Adgility XP's premium cushioned harness distributes the weight more evenly and higher on the back than other backpack vacuums. Independent testing by Sweden's Två Ergonomer testing bureau confirms that the Adgility XP's ergonomically advanced harness design results in significantly less operator fatigue and better productivity. The Adgility XP moves with the operator when bending or twisting and feels significantly lighter and more nimble, due to its superb balance.

Both the Adgility 6XP and 10XP are packed with power, but produce a sound level of only 62 dB A. Not only does this quiet performance result in less operator fatigue, but the Adgility XP is quiet enough to use any time of day without fear of disturbing building occupants.

Don't be fooled by their low sound level. These vacuums are powered by a 1,300 watt motor that moves 144 cubic feet of air per minute, and out-cleans its noisier competitors.

The modular design of the Adgility XP allows the operator to separate the tank from the motor department to easily add or change filters. The motors are also interchangeable between both sizes of vacuums.

For green cleaning solutions at a value price, the Adgility XP comes standard with four levels of filtration, plus an optional H.E.P.A. filter that removes 99.97% of dust particulates down to 0.3 microns. The Adgility XP is also green when it comes to emptying the paper dust bag. The bag has a unique SaniSeal™ self-sealing adhesive rim that folds to keep dust inside the bag, allowing for disposal without scattering dirt and dust back into the air.

Unlike other backpack vacuums, the filtered air discharge for the Adgility XP is directed back and away from the operator, eliminating a constant blast of warm air on the lower extremities which can contribute to operator fatigue and discomfort. This design also allows the Adgility XP to continue operating if the machine is placed on the floor or another surface.

TYPICAL APPLICATIONS INCLUDE

- Education Buildings
- Office Buildings
- Libraries
- Health Clubs
- Airports / Train Stations / Bus Depots
- Daytime Cleaning

STANDARD FEATURES INCLUDE

- 50 foot yellow safety cord
- Flexible, crush proof 1 1/2 inch hose
- 56 inch 2 piece S bend aluminum wand
- 14 inch Quick-Glide floor tool
- Upholstery Nozzle
- Round Dusting Brush
- Crevice Nozzle
- Padded, adjustable belt system
- Built in accessory loops on belt
- Four level filtration – 2 ply paper bag, cloth outer bag, vac motor pre-filter, exhaust filter

OPTIONAL ACCESSORIES INCLUDE

- H.E.P.A. filter
- Scallop carpet floor tool
- Paddle floor tool
- Hard floor brush tool

Advance Adgility™ 6XP & 10XP

Backpack Vacuums

Defining Cleaning Innovation...

- Our products are designed using innovative technology that increases productivity and drives down the cost to clean.
- You can get expert service and maintenance for your Advance machines from factory-trained personnel around the world. Fast parts delivery, too.
- Maintain peak performance with Nilfisk Genuine OEM Parts.

Nilfisk Genuine OEM Parts

Adgility™ XP fits comfortably on the operator.

Accessory loops keep tools handy while operating.

Cord restraint clips onto the safety cord and holds it in place.

Full dust bag can be sealed before removal to contain all dirt.

Adgility™

Back Pack Vacuum

Smart cleaning.

A Nilfisk-Advance Brand

Adgility™

Back Pack Vacuum

A Light-Weight, Comfortable Solution for Cleaning in Obstructed Spaces.

New from Advance is the Adgility™ back pack vacuum. With its light weight, small size, and ergonomic shape, the Advance Adgility maximizes operator agility and cleaning ability to create a new standard in comfort and performance.

At 6.4 pounds, the Adgility vacuum can be worn for extended periods of time without causing fatigue or muscle tension. Its small size and low weight allows the user to be more productive in tight areas such as cubical farms and commercial office space. Don't let its small size fool you; the Adgility vacuum has the most power, 25% more, than any machine in its class, which means better pick-up for increased productivity and deeper cleaning. Although the Adgility vacuum uses a powerful 1,000 watt motor, the unit is quiet enough for daytime cleaning without disturbing building occupants.

The Adgility vacuum features three levels of filtration and an optional H.E.P.A. filter for improved indoor air quality. The machine includes a 12 inch combination floor tool to provide dual surface cleaning for both hard and soft floors. In addition, the rotating dust brush enables the bristles to be turned to the correct angle, ensuring maximum cleaning.

Ideal applications include:

- Hospitals / Healthcare Facilities
- Commercial Cleaning
- Education
- Government Buildings and Installations
- Stairs
- Elevators
- Retail and Malls
- Health Clubs
- Daytime Cleaning
- Airports / Train Stations / Bus Depots

The Adgility back pack vacuum was built with operator comfort in mind with its padded waist belt. The belt includes loops to hold the crevice tool and dust brush, keeping them handy when on the go. No shoulder straps make it easier for the operator to bend over to pick up trash, larger debris, and perform other tasks while vacuuming. The machine's bent wand is ergonomically designed for users of all hand sizes and is less fatiguing to use. The Adgility vacuum's patented, curved back conforms to the user's body and provides greater comfort than competing designs. This vacuum is built to fit most people's body types.

Combination floor tool is easy to use on hard or soft floors.

Edge cleaning is done easily with the Adgility™.

Padded belt is adjustable for operators comfort.

Rotating dust brush positions bristles for cleaning multiple surfaces.

Detail cleaning on the go is easy with handy crevice tool and bristle brush.

Designed to be flipped over and operated by left or right handed users

Padded waist belt provides greater comfort

Patented curved back cradles the user

50 foot yellow safety cord

Semi-locking hose easy to attach or detach

Telescopic tube for easy height adjustment and user comfort

Easy to use foot switch for changing from carpet to hard floor

Crevice tool and round dust brush are standard accessories

Suction relief valve reduces power when needed

FEATURES AND BENEFITS

A 50 foot cord provides increased productivity as less time is spent changing outlets.

Light weight makes it easier to use and reduces operator fatigue.

Cost of ownership is reduced because of simple design and high quality features.

Optional H.E.P.A. filter for better indoor air quality and low sound level make daytime cleaning an option.
